

HERVEX 2017

International Conference on Hydraulics, Pneumatics,
Sealing Elements, Fluid Mechanics, Tools,
Specific Electronic Equipment & Mechatronics

HERVEX 2017

November 8 - 10, 2017, Baia Govora,
Vaslui County, ROMANIA

00 00 00

Reasons for Organizing this Scientific Event

- This is a real opportunity for presenting to general users the results obtained by the R&D units after the completion of projects under H2020, Innovative Industries and other research European funds.
- Meeting technology about the achievements and the way of development in the field of fluid power, in the context of the European scientific community, as well as increasing the visibility of the institution in international scientific forums and the international recognition of its work.
- Encouraging engineers, researchers in R&D programmes and experts in the domain of Hydraulics and Pneumatics to present their results in a more complete manner, development and innovation in Fluid Power, activity field which provides high productivity, resource saving, energy efficiency of industrial and mobile equipment.

Objectives of this Scientific Event

- Publishing and developing research in pneumatics and hydraulics within SMEs;
- Promoting hydraulics, mechanics, tribology, energy and technology transfer in leading areas, while addressing certain research projects in the light of these concepts;
- Identifying projects in the field of the conference together with EU3 companies;
- Increasing the concern of Research Institutes and Research Centers within Technical Universities in front of value production units in Romania in order to identify topics that can be addressed jointly;
- Making contacts between Romanian professionals in hydraulics and pneumatics and experts from foreign companies and universities, in order to develop joint international projects;
- Getting knowledge about the technical innovations of international companies in the field.

International Conference on Hydraulics and Pneumatics – HERVEX has become a forum for manufacturers, users and scientists to present and discuss future developments, application and product innovation and also to share experience and expertise.

Valcea Chamber of Commerce and Industry and Hydraulics & Pneumatics Research Institute in Bucharest organize this event since 1993.

HERVEX has established a reputation for being the industry meeting place where engineers invest in their future. This meeting event represents a mix of industrial fluid power products and services with a technical focus. It is a platform for discussing the problems and challenges facing today's engineering developments, as well as present a panel session to those who are looking for solutions to today's engineering challenges. The event gives a broad overview of the state of the art in fluid power both in terms of technology and practical applications.

Audience as engineers, designers, managers involved in the design, installation, maintenance or repair of machinery & equipment powered by fluid power systems, both hydraulic & pneumatic, from a wide range of markets such as construction, agriculture, manufacturing, mining, lumber, other types of heavy equipment, food processing and packaging industries, as well as maintenance, repair and plant operators.

Also, the researchers and scientists from the Romanian and abroad universities being an important contributors in developing of the symposium/papers presented as well as by participating in the section of education and training in FLUID POWER.

International Conference on Hydraulics and Pneumatics – HERVEX 2017 – is carried on the following structure:

- Scientific conferences
- thematic workshops
- panels

International Conference on Hydraulics and Pneumatics – HERVEX – 23rd edition

November 8-10, 2017, **Baia Govora, Vaslui County, Romania**

International Conference on Hydraulics and Pneumatics – HERVEX 2017 – is carried on the following structure:

- Scientific conferences
- panels
- thematic workshops

Organizers

Reasons for Organizing this International Event:

- This event is a great opportunity for presenting to potential users the results obtained by the R&D units after the completion of projects under H2020, Horizon 2020, Research Programs and other financing European funds.
- Bringing knowledge about the achievements and the scope of application of the field of fluid power.
- Integrating the experience of the scientific community in the field of mechanical, hydraulic, pneumatic, as well as increasing the visibility of its contributions to the international scientific meeting and the international exchange of theoretical research.
- Encouraging the transfer of knowledge in R&D programs and long-term use of the Domestic Research units to the European Community.
- Encouraging innovation and increasing awareness of the importance of fluid power regarding the importance of improving the quality of industrial products and technological development.

Registration

Reasons for Organizing this Scientific Event

You can register by downloading and filling in the participation contract.

Please fill in the participation form and send it by e-mail To: cova@ctv.ro and Cc: hervex@halus.ro (or by fax number: +40 25073349 and +40 21337940) until October 20, 2017.
