Reasons for Organizing this Scientific Event

- This event is a good opportunity for presenting to potential users the results obtained by the R&D units after the completion of projects under NERU, Innovation Programme and from existing European funds.
- Spreading knowledge about the achievements and the state of development in the field of the event.
- Integration of the Romanian scientific community in the activities of international scientific community, as well as increasing the visibility of its contribution to the international scientific heritage and for an international recognition of Romanian research.
- Encouraging Romanian participation in EU programmes and integration of the Romanian Research Area in the European Research Area.
- Fostering innovation and increasing awareness of the economic importance regarding the importance of implementing the results of scientific research and technological development.

International Conference on Hydraulics and Pneumatics HERVEX – 25th edition

November 13-15, 2019
Baile Govora, Valcea County, Romania

International Conference on Hydraulics and Pneumatics – HERVEX – the most significant international scientific reunion in the field of Fluid Power in Romania

The International Conference offers a common platform for presentation and discussion of innovation trends in FLUID POWER, to manufacturers, dealers, users and scientists.

Scientific lectures and novelties presented in the framework of this event, regarding equipment and integrated systems, will represent a basis for a new impulse towards development and innovation in Fluid Power, activity field which provides high productivity means for better energy efficiency of industrial and mobile equipment.

Objectives of this Scientific Event

- Establishing and developing research in pneumatics and hydraulics within SMEs;
- Promoting hydrostatics, mechatronics, tribology, green energy and technology transfer as leading areas, while addressing various research projects in the light of these concepts;
- Identifying projects in the field of the conference together with E.U. companies;
- Presenting the concerns of Research Institutes and Research Centers within Technical Universities in front of various production units in Romania in order to identify topics that can be addressed jointly;
- Making contacts between Romanian professionals in hydraulics and pneumatics and experts from foreign companies and universities, in order to develop joint international projects;
- Getting knowledge about the technical innovations of international companies in the field.

Venue

HERVEX 2019
Hotel Palace D.
in Baile Govora, Valcea County, Romania

Address: Palatul Hotel – J. Paveloni St., 242020, Baile Govora, Romania
Coordinates: Lat: 47°04'47"N, Lon: 24°19'47"E

International Conference on Hydraulics and Pneumatics – HERVEX

has become a forum for manufacturers, users and scientists to present and discuss future developments, application and product innovations and allow to share expertise and experience.

Valcea Chamber of Commerce and Industry and Hydraulics & Pneumatics Research Institute in Bucharest have been organizing this event since 1993.

HERVEX has established a reputation for being the industry meeting place where engineers invest in their future. The learning event incorporates a series of in-depth fluid power presentations with a trade fair environment. Exhibitors showcase their products and services to engineering decision-makers, as well as present a panel session to those who are looking for solutions to today's engineering challenges. The event gives a broad overview of the state of the art in fluid power both in terms of technology and practical applications.

Attendees are engineers, designers, managers involved in the design, installation, maintenance or repair of machinery & equipment powered by fluid power systems, both hydraulic & pneumatic, from a wide range of markets such as construction, agriculture, manufacturing, mining, harbor, other types of heavy equipment, food processing and packaging industries, as well as maintenance, repair and plant operators.

Also, the researchers and scientists from the Romanian and abroad universities bring an important contribution in developing of the workshop through papers presented as well as by participating in the section of education and training in FLUID POWER.

International Conference on Hydraulics and Pneumatics – HERVEX 2019 – is carried on the following structure:

- scientific conferences
- thematic workshops
- panels

13th – 14th PANEL 1
NOVELTIES AND TRENDS IN FLUID POWER DEVELOPMENT
- CIRCULE ECONOMY
- INDUSTRY 4.0

14th – 15th LUNCH

15th – 16th CONFERENCE 1
FLUID POWER COMPONENTS AND SYSTEMS IN INDUSTRIAL HYDRAULICS

16th – 17th WORKSHOP (Thematic Event on Technological and manufacturing structure of mechanical hydraulic equipment and automation by request)
6000TH Project (PC-A) 41.3.3-50(02)

17th – 18th WORKSHOP 1
INTEGRATED OPTIMIZATION THROUGH TECHNOLOGY TRANSFER
1 INVENTORIES CLUB
1 GOOD PRACTICES AND HUBS OF TECHNOLOGY TRANSFER

18th – 19th DINNER

THURSDAY, NOVEMBER 14

9th – 11th CONFERENCE 2
FLUID POWER COMPONENTS AND SYSTEMS IN MOBILE HYDRAULICS

11th – 14th COFFEE BREAK

14th – 15th PANEL 2
DIGITAL HYDRAULICS. DIGITALIZATION OF HYDRAULIC SYSTEMS

14th – 15th LUNCH

15th – 16th CONFERENCE 3
FUNDAMENTALS, ADVANCED MATERIALS, PNEUMATICS, TRIBOLOGY AND FLUIDS

15th – 16th PANEL 3
ADDITIVE MANUFACTURING PROCESSES

16th – 17th WORKSHOP 2
NOVELTIES AND TRENDS IN THE DEVELOPMENT OF COMPANIES
(Presentations of companies in Fluid Power sector)

17th – 19th WORKSHOP 3
EDUCATION AND TRAINING IN FLUID POWER
1 Methods to present applicable in the field of TRAINING courses
1 CONTEXT for young specialists
1 Presentation of interesting ideas in the field

17th – 19th PANEL (Thematic Event on Testing of repaired hydraulic equipment)
6000TH Project (PC-A) 41.3.3-50(02)

19th – 20th GALA DINNER

FRIDAY, NOVEMBER 15

9th – 10th CONFERENCE 4
ENVIRONMENT AND RENEWABLE ENERGY APPLICATIONS

10th – 12th PANEL 4
EUROPEAN FLUIDS – OPPORTUNITIES FOR INNOVATION AND TECHNOLOGY TRANSFER

12th – 13th WORKSHOP (Event on Testing of repaired hydraulic equipment)

- Integration of the Romanian scientific community in the activities of international scientific community, as well as increasing the visibility of its contribution to the international scientific heritage and for an international recognition of Romanian research.
- Encouraging Romanian participation in EU programmes and integration of the Romanian Research Area in the European Research Area.
- Fostering innovation and increasing awareness of the economic importance regarding the importance of implementing the results of scientific research and technological development.

Call for Papers

The objective of the conference is to provide an opportunity to exchange high quality recent information and trends on the future development in the field of Fluid Power among participants from design and research in the field of hydraulics and pneumatics. The conference aims to bring engineers from industry together with researchers and students from fluid power activity, in order to present news from research and interesting industrial applications of the fluid power systems.

We cordially invite all mobile visitors who activate in the field of Fluid Power and we encourage in contributing with a paper to the conference, first to forward an abstract and then a full-length paper to the e-mail addresses: hervev@hervev.ro, trudev@hervev.ro.

It is preferable to indicate the topic you consider that the proposed paper falls under.

The main topics* of the conference are:

3. Fluid Power Systems in Industrial and Mobile Hydraulics <ul style="list-style-type: none"> Valves High Speed Rotary Drives High Pressure Hydraulics Actuators Filter Technology Non-Newtonian Fluids in Hydraulic Equipment Development of hydraulic parts: pumps, valves 	5. Hydraulic Components and New Ideas in Fluid Power <ul style="list-style-type: none"> Flow Control High Pressure Hydraulics Hydraulic System Design Vacuum Technology Miscellaneous Pneumatics Low-Emission Pneumatics Pneumatic systems and their applications Pneumatic components and their innovation
4. Additive Manufacturing (AM) <ul style="list-style-type: none"> 3D A (Manufacturing) 3D F (Fused Deposition Modeling) 3D E (Electron Beam Melting) 3D D (Direct Printing) 3D S (Selective Laser Melting) 	6. Emerging Trends in Fluid Power Development <ul style="list-style-type: none"> EUROPEAN ECONOMY INDUSTRY 4.0
7. Fundamentals, Advanced Materials and Tribology <ul style="list-style-type: none"> Fluids in Environmentally Friendly Fluids on Efficiency 100 Maintenance and Mobile Problems Physics in Hydraulics Lubrication and Lubricants Green Tribology Contact mechanics of rough surfaces (including adhesion) Friction between rigid rough surfaces and elastomers Method of reduction of discontinuity in contact mechanics and friction Wear and surface technology Non-Newtonian, Nanomaterials and Nanofluidics Non and Micro Tribology 	8. Environment and Fluid Power <ul style="list-style-type: none"> Depollution of waste water Friction and drainage Minimization of high pollution areas Fluid Power in production of renewable energy High pollution monitoring and waste recycling Waste Energy Conversion Wind Energy Plants Energy Storage
9. Education and Training in Fluid Power <ul style="list-style-type: none"> University and professional education in Fluid Power systems branch Industrial training in Fluid Power and Lubrication systems 	10. Abstracts and Copyright Agreement

*The conference topics are suggestions for the papers.

Registration

Reasons for Organizing this Scientific Event

This event is a good opportunity for presenting in general areas the results obtained by the R&D units after the completion of projects under HERVEX Innovation Programme and their receiving European funds.

Acquiring knowledge about the activities and the range of development in the field of the event.

Integration of the Romanian scientific community in the activities of international scientific community, as well as increasing the visibility of the contribution to the international scientific heritage and for an international recognition of Romanian research.

Following Romanian participation in 101 programmes and integration of the Romanian Research Unit in the European Research Area.

Presenting scientific and technical activities of the research institutions regarding the progress of implementing the results of scientific research and technological development.

Here you can register by downloading and filling in the participation contract.

Please fill in this participation form and send it by e-mail To: conv@skit.ro and Co: herve@fluidas.ro or by fax number: +40 252733440 and +40 213373040 **until October 25, 2019**
